Plant and Soil **134**: 309–311, 1991.

Contents of Volume 134 1991

Volume 134, No. 1

H. Marschner, Mechanisms of adaptation of plants to acid soils 1
R. J. Wright, V. C. Baligar, D. P. Belesky and J. D. Snuffer, The effect of phosphate rock dissolution on soil chemical properties and wheat seedling root elongation 21
M. P. Gichuru, Residual effects of natural bush, *Cajanus cajan* and *Tephrosia candida* on the productivity of an acid soil in southeastern Nigeria 31
M. van Noordwijk, Wdianto, M. Heinen and K. Hairiah, Old tree root channels in acid soils in the humid tropics: Important for crop root penetration, water infiltration and nitrogen management 37
J. Shamshuddin, I. Che Fauziah and H. A. H. Sharifuddin, Effects of limestone and gypsum application to a Malaysian ultisol on soil solution composition and yields of maize and groundnut 45
N. S. Bolan, M. J. Hedley and R. E. White, Processes of soil acidification during nitrogen cycling with emphasis on legume based pastures 53
R. L. Fox, N. V. Hue, R. C. Jones and R. S. Yost, Plant-soil interactions associated with acid, weathered soils 65
M. J. McLaughlin and T. R. James, Effect of phosphorus supply to the surface roots of wheat on root extension and rhizosphere chemistry in an acidic subsoil 73
J. J. Maddox and J. M. Soileau, Effects of phosphate fertilization, lime amendments and inoculation with VA- mycorrhizal fungi on soybeans in an acid soil 83
K. Hairiah, M. van Noordwijk and S. Setijono, Tolerance to acid soil conditions of the velvet beans *Mucuna pruriens* var. *utilis* and *M. deeringiana*. I. Root development 95
R. A. Carran, Calcium magnesium imbalance in clovers: A cause of negative yield response to liming 107
P. R. Warman, Effect of incorporated green manure crops on subsequent oat production in an acid, infertile silty loam 115
G. Kirchhof, J. Blackwell and R. E. Smart, Growth of vineyard roots into segmentally ameliorated acidic subsoils 121
M. P. W. Farina and P. Channon, A field comparison of lime requirement indices for maize 127
N. K. Fageria, V. C. Baligar and R. J. Wright, Influence of phosphate rock sources and rates on rice and common bean production in an Oxisol 137
S. R. Aarons and P. H. Graham, Response of *Rhizobium leguminosarum* bv *phaseoli* to acidity 145
R. J. Bennet and C. M. Breen, The aluminium signal: New dimensions to mechanisms of aluminium tolerance 153
T. B. Kinraide, Identity of the rhizotoxic aluminium species 167
L. Galvez and R. B. Clark, Nitrate and ammonium uptake and solution pH changes for Al-tolerant and Al-sensitive sorghum (*Sorghum bicolor*) genotypes grown with and without aluminium 179

Volume 134, No. 2

N. S. Bolan, A critical review on the role of mycorrhizal fungi in the uptake of phosphorus by plants 189
D. A. Wardle and D. Parkinson, Relative importance of the effect of 2,4-D, glyphosate, and environmental variables on the soil microbial biomass 209
M. R. Reddy, A. Ronaghi and J. A. Bryant, Differential responses of soybean genotypes to excess manganese in an acid soil 221
J. M. Kelly and S. A. Barber, Magnesium uptake kinetics in loblolly pine seedlings 227
J. O. Siqueira, G. R. Safir and M. G. Nair, VA-mycorrhizae and mycorrhiza stimulating isoflavonoid compounds reduce plant herbicide injury 233
D. O. Huett and E. B. Dettmann, Nitrogen response surface models of zucchini squash, head lettuce and potato. I. Effect of N on growth, dry matter partitioning and on fresh yield and quality 243
R. P. Griffiths, M. A. Castellano and B. A. Caldwell, Hyphal mats formed by two ectomycorrhizal fungi and their association with Douglas-fir seedlings: A case study 255
A. J. Gijsman, J. Floris, M. van Noordwijk and G. Brouwer, An inflatable minirhizotron system for root observations with improved soil/tube contact 261
R. M. Mohammad, M. Akhavan-Kharazian, W. F. Campbell and M. D. Rumbaugh, Identification of salt- and drought-tolerant *Rhizobium meliloti* L. strains 271
H. M. G. van der Werf, B. W. Veen and M. Tollenaar, Xylem exudate yield from detopped maize plants as an estimator of root pruning 277
R. E. Macur, D. E. Mathre and R. A. Olsen, Interactions between iron nutrition and Verticillium wilt resistance in tomato 281
M. V. Cheshire and C. Shand, Translocation and plant availability of radio caesium in an organic soil 287
J. S. Dahiya, Cajaflavanone and cajanone released from *Cajanus cajan* (L. Millsp.) roots induce nod genes of *Bradyrhizobium* sp. 297
